SERVICES, RESEARCH & TRAINING

JPZ continuously strengthens its organizational capacity through targeted strategic initiatives. Among these, the Center for Extension Services, Research and Training (CESRT) functions as an integrated platform linking research, training, and field-level implementation. This initiative provides a variety of technical advisory services, development of professional capacity and applied research support in the areas of effective, sustainable and resilient, infrastructure and socio-economic development.

Topic 1

The Managing Director of our company recently attended the FIDIC Global Infrastructure Conference, held from 21 to 23 September, 2025 at the Cape Town International Convention Centre, specifically focusing on smart, sustainable, resilient and inclusive infrastructure as well as digital transformation.

Topic 2

Our company is undertaking systematic research in transportation engineering through it’s recent initiative, the Center for Transportation Services (CTS). This initiative specifically focuses on the scientific and technical aspects of transportation system design, construction, operation and maintenance to enhance overall traffic efficiency and resilience.

Topic 3

Some of the employees of our company participated in an in-house training program this year, which focused on project management, effective client handling, better professional communication, and inclusive development of relationships with clients, which has highly strengthened the performance of the overall organization.

ONGOING PROJECTS

JPZ is currently working on the Hsia pedestrian underpass construction project, a nationally important 1070 m tunnel linking airport terminals with MRT, BRT, DAEE- Dhaka Ashulia Elevated Expressway, BR and Ashkona Hajj Camp, improving the pedestrian safety, connectivity, and sustainable mobility in Dhaka.

Hazrat Shahjalal International Airport (HSIA) Pedestrian Underpass Construction Project

JPZ is working on the MDIP project by providing consultancy services to study and assess hydro-morphological, socio-economic and environmental impacts of the project rehabilitation, supporting BWDB through modelling, field studies, stakeholder consultation, and reporting to guide sustainable development.

Consultancy Services for Study on Social and Environmental Impacts After Implementation of the Meghna-Dhonagoda Irrigation Project (MDIP)

Global Infrastructure Conference, 21-23 September, 2025, Cape Town

Honorable Managing Director of JPZ Consulting (Bangladesh) Ltd. represented Bangladesh at the FIDIC Global Infrastructure Conference, 2025 a premier international forum on smart infrastructure and sustainability. The event convened global stakeholders to deliberate digital transformation, climate resilient adaptation and strategies to bridge infrastructure gaps. JPZ proudly acknowledges his leadership, excellence and dedication.
